Udyam Saathi

Privacy-first omnichannel onboarding: WhatsApp for communication, a secure web portal for verification, and AI for intelligent assistance

Submitted by: **Team twomuch (Trishna & Harshini)**

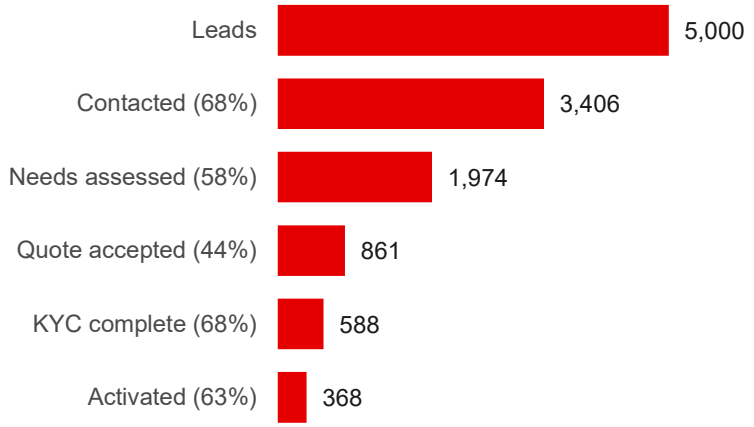

From lead to live in 48 hours, in the owner's own language

Platform Partner unstop

93% of SMB leads never activate; 42% are lost before a pitch

Apr–Jun 2026 funnel (5,000 leads)

Steepest drop: needs assessed → quote accepted (44%). 17.6 days from lead to activation and 3 status chases per customer.

42%

of drops: no reach, no visit

1,951 of 4,632: unreachable, wrong number, no time for a visit, visit never scheduled

₹20,007

CAC per micro activation

vs a ₹2,505 monthly bundle: 8-month payback, then 23% churn within 6 months

5.9→27.9%

churn as status chases rise

Customers who chased 1× vs 5×. NPS falls from 7.5 to 6.0 on the same curve

22

activated on invalid GSTINs

Cancelled or suspended registrations slipped through manual KYC

Source: smb_leads.csv, mock_gstin_registry.csv (synthetic). 77% of leads prefer a non-English language.

Udyam Saathi: chat on WhatsApp, verify on a secure portal

Convenience where it is safe, control where it is sensitive. No document ever travels over a messaging app.

WhatsApp: discover

Voice or text, 10 languages

- AI asks 4–5 questions: business type, staff, sites, current tools
- Recommends a bundle with one monthly price and a plain-language why
- Sends a one-time secure link for quote and KYC

Portal: verify & buy

OTP login, link expires in 15 min

- Enter GSTIN or Udyam: name and address auto-fill from registry
- Upload documents: OCR extraction and instant validation
- Consent screen per purpose, toggle add-ons, e-sign and pay

WhatsApp: track

Status updates only

- KYC complete, or exactly what action is needed
- Install slot booked, technician ETA
- Activated, with a live tracker link instead of a support call

GenAI advisor + rules engine

LLM handles the conversation; every bundle is checked against catalogue rules (city tier, size, GSTIN, dependencies) before a price is shown.

Human rescue: field force and partners

A propensity score sends stalled, high-value leads to sales or the nearest partner with the AI chat summary. Partners earn commission on digital closes in their area.

Lead with professional offices; win micro with a ₹1,199 Starter

Segment	Wave	Bundle	What's inside	Price / month	Contract	Journey
Professional offices 25% of base · 11.1% activate	1	**Pro Office**	Fibre 300 · 2 postpaid 599 · cloud email ×5 · backup 1 TB · endpoint ×5 · static IP	**₹4,499**	12 months	Fully digital
Micro retail & services 55% of base · 4.1% activate	1	**Dukaan Starter**	5G AirFiber 100 · 1 business SIM. Add-ons: POS ₹599, CCTV ₹199/camera	**₹1,199**	6 months, no GSTIN needed	Digital, live in 48 h
Small multi-site 15% of base · 11.0% activate	2	**Chain Connect**	Per site: Fibre 300 · 4G/5G failover · 2 CCTV · cloud POS. One bill for all sites	**₹2,899 / site**	12 months	Digital + partner
Small manufacturers 5% of base · 12.8% activate	3	**Factory Link**	Leased line 20 · failover · managed firewall · machine IoT ×10 · 3 postpaid 599	**₹13,499**	24 months	Field-assisted

Advisor explains in the owner's language

"Aapke clinic mein 6 log hain aur patient records cloud par chahiye, isliye Pro Office suggest kar rahe hain: ₹4,499 mahina, ek bill, ek support number."

Why this order

Wave 1 targets the best conversion (pro offices) and the biggest volume (micro), where only a digital journey makes CAC viable. Prices are catalogue minimums with a small bundle discount.

Architecture: AI where it helps, guardrails where it matters

CHANNELS

WhatsApp
BSP API · voice notes

Voice / IVR
Hindi + 9 languages

Secure web portal
PWA · OTP · 15-min link

API gateway · auth · rate limits · PII masking at the edge

SERVICES

GenAI advisor
LLM + eligibility rules

Smart KYC
Registry · OCR · DigiLocker

Quote & checkout
Toggles · e-sign · UPI

Order tracker
Install ETA · alerts

DATA & OPS

Consent manager
Per purpose, revocable

Encrypted vault
Docs · auto-delete

Lead & propensity
Scores stalled leads

Partner & field console
Leads the AI could not close, with chat summary and next best action

Smart KYC checks

- GSTIN format and checksum
- Registry status: block 268 cancelled or suspended GSTINs
- Name match across GST, Udyam and signatory ID
- Address proof no older than 90 days
- Product rules, e.g. firewall needs an active GSTIN

DPDP Act 2023, by design

- Consent per purpose, shown before KYC
- Minimisation: Starter asks for no GSTIN
- IDs masked in UI and logs (27QTB•••••1Z9)
- Docs deleted 90 days after activation
- Role-based access and a full audit log

Competitors sell products; no one sells a guided, safe journey

Capability	Udyam Saathi	JioBusiness	Vi Business	Tata Tele Biz	Local ISPs	Digital SaaS
Vernacular AI advisor that picks a bundle	Yes	No	Self-assessment	No	In person	No
Multi-category bundle, one price and bill	Yes	Fibre + tools	Partial	Comms suite	No	No
Near-instant digital KYC	Yes	Partial	Partial	Partial	No	Yes
No documents over chat; DPDP consent UI	Yes	Partial	Partial	Partial	No	Partial
Proactive WhatsApp order tracker	Yes	App	App	Partial	No	Partial
AI-routed leads for field and partners	Yes	No	No	No	Is the partner	No
Their edge	**Bundle + trust + speed**	Price and reach; broadband plans with work tools	MSME advisory brand (ReadyForNext)	Cloud comms depth; WhatsApp platform	Cheap, local, personal	Instant self sign-up, single product

How we win: match Jio on entry price (₹1,199 Starter), beat Vi's advisory with a 24×7 AI advisor that also closes the sale, keep local partners' trust by paying them on digital closes, and match SaaS sign-up speed. Privacy-first KYC is the one thing nobody else offers.

Indicative, from public announcements (Nov 2026). Digital SaaS = cloud email, WhatsApp API, POS vendors.

Platform Partner unstop

Impact: 2× activations at 60% lower acquisition cost

Metric	Today	12-month target	Main lever
Lead-to-activation conversion	7.4%	**15%**	Instant WhatsApp reply, no visit needed
Days from lead to activation	17.6	**≤ 5 (2 for Starter)**	One-sitting KYC, AirFiber first
Blended CAC per activation	₹15,050	**≤ ₹6,000**	Digital close; field only for rescue
Status chases per customer	3.0	**< 0.5**	Proactive tracker updates
6-month churn (micro)	15.2% (22.7%)	**≤ 10% (12%)**	Right-sized bundle, fewer chases

+400 more activations a quarter (368 → 768, same leads)

≈ ₹3.3 cr new annual recurring revenue per quarter

−17% acquisition spend (₹55 → ₹46 lakh) for 2.1× customers

Digital sources already close at ₹4–6k CAC

Wave 1 · 0–3 months

Pro Office + Dukaan Starter in 4 tier-1 cities; Hindi and English; field team shadows the AI

Wave 2 · 3–9 months

8 more languages, tier-2 cities, partner console and commissions, Chain Connect

Wave 3 · 9–18 months

National, voice-first; Factory Link via field-assisted journeys; upsell engine

Key risks → mitigation

Wrong advice → rules engine checks every bundle · OCR errors → human review queue · partner pushback → paid on digital closes
